

GeoSpark Onestop Solution

Tagline: "Innovation Meets Kenya's Future."

About Us

GeoSpark Onestop Solution is a leading provider of integrated services in land survey, construction, urban planning, interior design, landscaping, and real estate management. We drive Kenya's growth with innovative, sustainable solutions for infrastructure, spaces, and communities.

Services

1. Land Survey/Geospatial Services

We provide accurate geospatial data and surveys critical for planning, development, and securing land in Kenya. From infrastructure projects to land titling, our

surveys ensure data-driven decisions.

- Topographic Survey: Detailed mapping of land features for infrastructure projects like roads, dams, helping planners make informed decisions.

- Cadastral Survey: Secure land ownership with precise surveys for registration, subdivision, and property mapping – key for Kenyan landowners.

- Engineering Survey: Surveys for construction, roads, energy projects (wind farms, solar), ensuring projects are built right.

- GIS Services: Unlock insights with mapping and analysis for agriculture, conservation, urban planning.

- Drone/UAV Surveying: Fast, accurate aerial surveys for mapping, agriculture monitoring, inspections.

- Land Valuation Surveys: Support land acquisition, compensation processes with

fair valuations.

- Boundary Surveys for Titling: Secure your land title with expert surveys, a common need in Kenya.

2. Construction

We build Kenya's future with quality construction, sustainable practices, and project management expertise.

- Building Construction: Residential, commercial, affordable housing – we deliver quality builds for Kenyan homes, businesses.

- Infrastructure Development: Roads, bridges, water projects – building the backbone of Kenya's growth.

- Project Management: Oversees construction timelines and budgets. We deliver on-time, on-budget.

- Renewable Energy Projects: Solar, wind farms driving Kenya's green energy agenda.

- Sustainable Building Solutions: Eco-friendly construction suited for Kenya's climate – build green, smart.

- Rural/Urban Infrastructure: Water supply, sanitation, access roads improving lives.

3. Urban Planning

Planning for Kenya's growing towns and cities with smart land use, design, and compliance.

- Land Use Planning: Zoning, spatial planning for growing Kenyan towns – plan smart, grow smart.

- Urban Design: Planning neighborhoods, public spaces, affordable housing creating livable cities.

- Environmental Impact Assessments (EIAs): Navigate regulations, minimize project impact – a must for Kenyan projects.

- County Planning Support: We partner with county governments on development plans, driving local growth.
- Transportation Planning: Planning efficient movement for Nairobi, Maiti, other Kenyan cities.
- Slum Upgrading: Planning for informal settlement upgrades, improving lives, spaces.

4. Interior Design

Creating beautiful, functional spaces in Kenya with a focus on sustainability and custom solutions.

- Space Planning: Optimize spaces for functionality, aesthetics – make spaces work for you.
- Design Consultancy: Beautiful, functional interiors for homes, offices, commercial spaces – style meets practicality.

- Sustainable Design Solutions: Eco-friendly materials, practices tailored for Kenyan spaces – design green, live better.
- Custom Furniture and Fittings: Tailored solutions for unique spaces – perfect fit, every time.
- Project Management: We oversee interior design projects, timelines, budgets – delivered with care.

5. Landscaping

Bringing green to Kenyan spaces with garden design, hardscaping, and maintenance.

- Garden Design: Beautiful outdoor spaces for homes, offices, public areas – bring green to your space.
- Hardscaping: Paving, pathways, outdoor features (pools, gazebos) crafting experiences.
- Irrigation Systems: Efficient water

management for gardens, landscapes – save water, green spaces.

- Maintenance Services: Ongoing care for outdoor spaces – keep landscapes thriving.

6. Real Estate Management

We offer consulting, management, and optimization services for residential, commercial, and industrial properties in Kenya.

- Property Consulting: Feasibility studies, valuations, market analysis

- Property Management: Tenant management, maintenance, lease management

- Asset Optimization: Enhancing property value through strategic planning

Mission

To shape Kenya's future with sustainable, innovative solutions in infrastructure, spaces, and communities.

Vision

To be Kenya's leading partner in building smart, green, and resilient spaces.

Values

- Innovation: Pushing boundaries for better solutions.
- Sustainability: Building for Kenya's tomorrow.
- Integrity: Transparent, ethical delivery.
- Collaboration: Partnering for growth.

Team

GeoSpark brings together experts in land survey, construction, urban planning, investment, sustainable practices, and

business skills – passionate about shaping Kenya's future.

1. Joshua Njuguna - Co-Founder & Land Surveyor

Joshua is a Land Surveyor with a Bachelor of Technology in Surveying Technology (Technical University of Kenya). He's an expert in Topographic, Engineering, Cadastral Surveys, Remote Sensing, and GIS, blending survey expertise with marketing insights. Joshua's providing leadership for GeoSpark, leading the push to position GeoSpark as a leader in geospatial solutions and sustainable infrastructure development in Kenya.

2. Alvin Maingi - Co-Founder & Land Surveyor

Alvin is a Land Surveyor with a Bachelor of Technology in Surveying Technology

(Technical University of Kenya). He's skilled in Topographic, Engineering, Cadastral Surveys, Remote Sensing, and GIS, blending survey with modern technology. Alvin's leading GeoSpark's charge for modern geospatial and innovative construction practices in Kenya.

3. Margaret Kimani - Co-Founder, Investment & Sustainability Advisor

Margaret is an investment banker with expertise in structuring deals and securing funding for large-scale projects. She's passionate about green construction and innovation, particularly in eco-friendly building materials and energy-efficient designs. Margaret's driving GeoSpark's adoption of sustainable building practices, leveraging her financial acumen to attract investment for impact-driven projects in Kenya.
